

BugDorm-4H4545 Insect Cage [BD4H4545]

MegaView Science Co., Ltd.

<https://shop.bugdorm.com> · <https://megaview.com.tw>

Package Contents

- x1 Fabric Cage Body
- x12 Fiberglass Rods
- x4 Three-way Joints
- x4 Webbed Three-way Joints

Assembly

1. Thread one rod into each of the 12 sleeves of the cage.
2. Connect rods with the three-way joints. The webbed joints are designed to secure the hard floor (made of acrylic, sold separately). If the solid bottom is not required, all three-way joints are interchangeable and can be used at any corner to connect the rods.
3. The ribbons sewn to the sleeve can be used to close the opening.

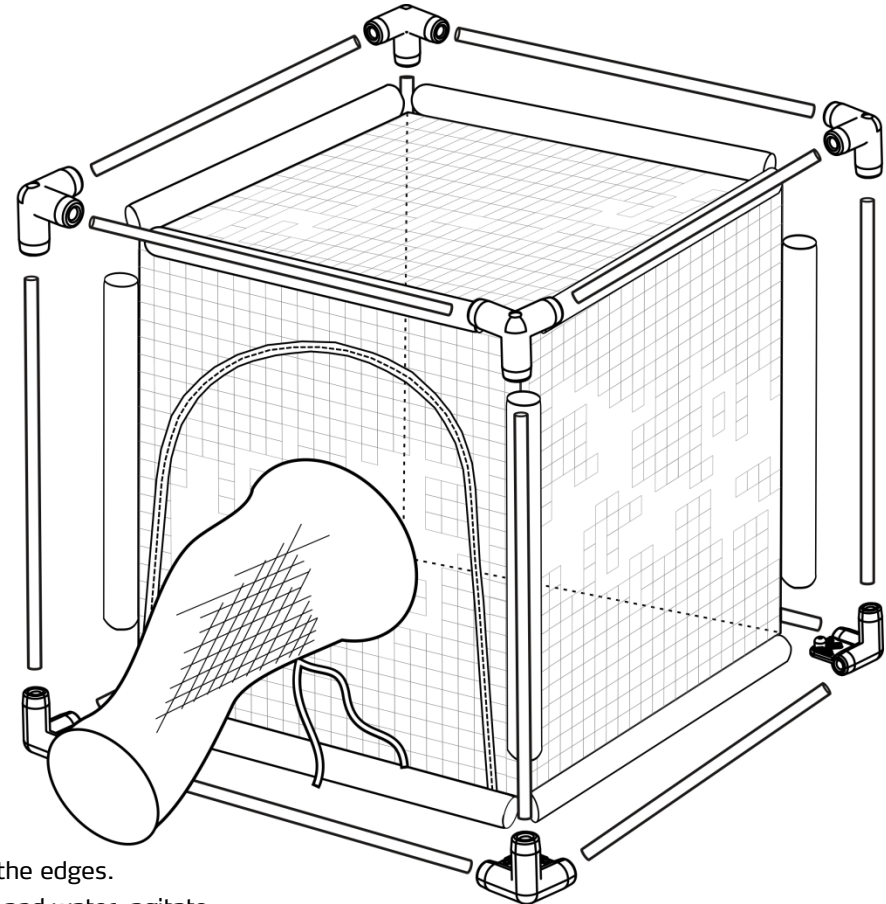

Note

- * Operating Temperature: -10 to 60°C
- * The floor is made of the same mesh fabric as the other cage panels.

CLEANING MACHINE WASH: Not recommended, as the fabric can easily tear from the edges.

HAND WASH: Submerge and soak the cage for 20-30 minutes in the mix of detergent and water, agitate the cage gently, and then rinse the cage to remove the detergent.

CAUTION: Wash cage body only. Wash at room temperature. Recommend applying neutral detergents. Apply bleach or stain remover with care, as those chemicals weaken the cage fabric. Dry the cage in the shade.
